Upon the fulfilment of the aforementioned conditions, the Scheme shall become effective on the date on which the certified copy of the order of the Competent Authority sanctioning the Scheme is filed by the Transferor Company and the Transferee Company with the jurisdictional Registrar of Companies ("**Effective Date**").

## 2. Need for the Scheme

- 2.1 Transferor Company, a subsidiary of the Company, was set-up as a Special Purpose Vehicle ("**SPV**") for captive coal mining for the Company. The Transferor Company had been allotted by Ministry of Coal, Government of India Utkal C Coal Block in the Angul district in the state of Odisha, with net geological reserves of approximate 196 MMT. The Transferor Company proposed to set-up a coal mining project along with a washery, railway siding and other infrastructure facilities for supply of required quality and quantity of coal to both existing and proposed thermal power projects of the Company. The Transferor Company was to take up the mine development, excavation and operation of Utkal-C Block.
- 2.2 However, the said coal block was cancelled in 2014 following the orders of Hon'ble Supreme Court. The coal block was considered for fresh auction in October 2021 by the Nominated Authority and Jindal Steel & Power Limited ("**JSPL**") was declared as the new allottee on 21.07.2022. As a result, the Transferor Company could not commence commercial operations.
- 2.3 Consequently, the Transferor Company has not commenced commercial operations. As a result, the Transferor Company can no longer fulfil the specific purpose for which it was initially incorporated.

### **3. Rationale of the Scheme**

- 3.1 The Transferor Company, a subsidiary of Transferee Company, was created solely to mine coal from the Utkal C Block and supply it to IMFA's existing and future power plants. However, the Hon'ble Supreme Court of India cancelled the coal block, and JSPL was eventually declared the new allottee. Consequently, the Transferor Company has not commenced commercial operations. As a result, the Transferor Company can no longer fulfil the specific purpose for which it was initially incorporated;
- 3.2 Since the Transferor Company can no longer fulfil its original purpose, the proposed Amalgamation will lead to elimination of fixed costs associated with the Transferor Company;
- 3.3 The proposed Amalgamation simplifies the corporate structure by removing an entity because the Transferor can no longer fulfil its original purpose;
- 3.4 The proposed Amalgamation aims to optimise resources, reduce costs and enhance shareholder value;
- 3.5 The proposed amalgamation will result in reduction of administrative and operational costs thereby maximising shareholding value of merged entity;

### **4. Synergies of Business**

The objects clause of clause of the Transferor Company mentioned in its Memorandum of Association have synergy with the operations of the Transferee Company.

**5. Scheme not detrimental to the Shareholders**

5.1 Based on the discussion of the ID Committee and on review of the documents placed before the meeting, the ID Committee is of the view that the Scheme is not detrimental to the shareholders of the Company. The ID Committee is of the further view that the Scheme is fair and in the best interest of the shareholders as the proposed scheme is expected to result in economies of scale and consolidation of opportunities thereby enhancing the value of the merged entity and overall shareholder value.

5.2 Further, the ID Committee noted that upon the Scheme coming into effect, the Transferee Company shall, without any further application, act or deed, issue 100 (one hundred) equity shares of the Transferee Company as nominal consideration to all (and not each) the shareholders of the Transferor Company (other than the Transferee Company as a company cannot hold shares in itself) in proportion to their shareholding in the Transferor Company on the relevant Record Date..

**6. Recommendation of the ID Committee**

In light of the aforesaid, the ID Committee is of the view that the proposed Scheme is not detrimental to the shareholders of the Company and considering the benefits as discussed above, the ID Committee recommends the proposed Scheme to the Board for its approval subject to changes as the Board may deem fit and subject to regulatory approvals as prescribed by the Companies Act read with the Regulations.
